VIEWS

- 692 **A Clearing in the Forest: The Wondrous Genome**
JADA Editor Marjorie K. Jeffcoat, D.M.D., contemplates the remarkable accomplishment of the Human Genome Project and what it teaches us about the science of life.

LETTERS

- 694 *JADA readers explore standards of care, lasers in dentistry and portfolios for determining licensure competency.*

NEWS

- 724 *A recent study in The Journal of the American Medical Association that suggested an association between women's exposure to dental radiographs and low-weight births reinforces the ADA's long-standing recommendation that patients use both abdominal aprons and thyroid collars, whenever practical, to minimize radiation exposure. JADA readers respond to the March Question of the Month.*

RESEARCH

- 731 **Motivating Parents to Prevent Caries in Their Young Children: One-Year Findings**
Philip Weinstein, Ph.D.; Rosamund Harrison, D.M.D., M.S.;
Tonya Benton, M.A.
The authors compare the effect of motivational interviewing counseling treatment versus that of traditional health education on parents of young children at high risk of developing dental caries.

- 739 **Abutment Tooth Loss in Patients With Overdentures**
Ronald L. Ettinger, B.D.S., M.D.S., D.D.Sc.; Fang Qian, Ph.D.
Drs. Ettinger and Qian conduct a prospective, cohort study to identify the incidence and causes of tooth loss in subjects wearing overdentures.

- 747 **Conducting Systematic Reviews and Creating Clinical Practice Guidelines in Dentistry: Lessons Learned**
Susan E. Sutherland, D.D.S., M.Sc.;
Debora C. Matthews, D.D.S., Dip. Perio., M.Sc.
As participants in the Canadian Collaboration on Clinical Practice Guidelines in Dentistry, the authors discuss their experiences in developing clinical practice guidelines for dentists.

CLINICAL PRACTICE

- 754 **Squamous Cell Carcinoma Arising in an Oral Lichenoid Lesion**
Mahnaz Fatahzadeh, D.M.D., and colleagues
The authors document the development of squamous cell carcinoma in a woman with an oral lesion diagnosed clinically as oral lichen planus and described histologically as having lichenoid features with dysplastic changes.

- 760 **Conservative Treatment of the Class I Lesion: A New Paradigm for Dentistry**
Philip Hudson, D.D.S.
Dr. Hudson explores the topic of minimally invasive dentistry.

CLINICAL DIRECTIONS

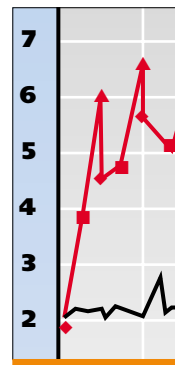

- 765 *The authors describe an emergency care assessment form they developed to help organize doctors and staff for effective emergency case management.*

OBSERVATIONS

767 Is Occlusion Becoming More Confusing? A Plea for Simplicity

Gordon J. Christensen, D.D.S., M.S.D., Ph.D.

Dr. Christensen explores the characteristics of "normal" occlusion and makes suggestions about the desirability of achieving these characteristics when altering occlusion.

page 799

DENTISTRY & MEDICINE

771 Panic Disorder: Psychopathology, Medical Management and Dental Implications

Arthur H. Friedlander, D.D.S., and colleagues

Dr. Friedlander and colleagues review the clinical features, epidemiology, pathophysiology, dental findings, and dental and medical management of the care of patients with panic disorder.

TRENDS

779 Access to Dental Care: The Triad of Essential Factors in Access-to-Care Programs

Albert H. Guay, D.M.D.

Dr. Guay explores the factors that are essential in the successful design and operation of programs aimed at improving access to dental care for underserved populations.

A BETTER PRACTICE

786 Inventory Management

Roger Levin, D.D.S., M.B.A.

Dr. Levin examines the topic of inventory management in dental practices.

PRACTICE MANAGEMENT

788 Stress, Burnout, Anxiety and Depression Among Dentists

Robert E. Rada, D.D.S., M.B.A.; Charmaine Johnson-Leong, B.D.S., M.B.A.

The authors examine stress, anxiety and depression among dentists and ways of coping with these problems.

CONTINUING EDUCATION

795 *JADA's continuing education program highlights abutment tooth loss in patients with overdentures, squamous cell carcinoma arising in an oral lichenoid lesion, panic disorder and access to dental care.*

ADVANCES IN DENTAL PRODUCTS

799 A Simulated-Use Evaluation of a Strategy for Preventing Biofilm Formation in Dental Unit Waterlines

James W. McDowell, B.S., and colleagues

In a simulated clinical-use study, the authors evaluate the ability of a test product to prevent biofilm formation.

DENTISTRY & THE LAW

806 Court Upholds Final Version of HIPAA Privacy Regulations

Peter M. Sfikas, J.D.

Mr. Sfikas reviews a recent federal district court decision, which upheld the final version of the HIPAA privacy regulations that allow health care entities covered by its rules to disclose patients' protected health information for routine purposes without first obtaining patients' consent.
